The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
   The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 2, 4-11 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 3. Claim 2 recites the limitation "the receiving end" in lines 7-8. There is insufficient antecedent basis for this limitation in the claim.
- 4. Claim 4 recites the limitation "the information" in lines 3-4. There is insufficient antecedent basis for this limitation in the claim.
- 5. Claim 5 recites the limitation "the operation of suspending" in line 6. There is insufficient antecedent basis for this limitation in the claim.
- 6. Claim 10 recites the limitation "the product" in line 7. There is insufficient antecedent basis for this limitation in the claim.
- 7. Claim 11 recites the limitation "the product" in line 7. There is insufficient antecedent basis for this limitation in the claim.
- 8. Claim 13 recites the limitation "the information" in lines 3-4. There is insufficient antecedent basis for this limitation in the claim.
- 9. Claim 13 recites the limitation "the time length" in line 5. There is insufficient antecedent basis for this limitation in the claim.
- 10. claims 6-9 are also rejected because they depend on a base rejected claim.

Art Unit: 2611

### Allowable Subject Matter

- 11. Claims 1, 3 and 12 are allowed over the prior art of record.
- 12. Claims 4 and 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
- 13. Claims 2, 5 and 10-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
- 14. The following is a statement of reasons for the indication of allowable subject matter: determining unit for determining whether the input signal is to be resent or not, based on the information of the guard interval period of the input signal; and a control unit for restricting the process of resending an input signal determined by the determining unit as a signal other than to be resent as recited in claims 1 and 12. A determining unit for determining the degree of correlation between a part of the input signal and the guard interval period of the signal delayed by the delay unit; and a control unit for restricting the resending operation of the amplifier unit in the case where the degree of correlation of the input signal determined by the determining unit is lower than a predetermined degree and the input signal is other than to be resent as recited in claims 4 and 13.

#### Conclusion

15. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Nakao et al U.S. Pub NO 2002/0057750 A1 teaches an OFDM receiver.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel Bayard whose telephone number is 571 272 3016. The examiner can normally be reached on Monday-Friday (7:Am-4:30PM) Alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571 272 2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
